### **President & CEO of RJN Group, Inc. receives WEF's 2003 Collection System Award**

Wheaton, IL (October 20, 2003) – The President and CEO of RJN Group, Inc., Alan J. Hollenbeck, P.E., received Water Environment Federation's 2003 Collection System Award. The award is presented for contribution to the advancement of state-of-the-art of wastewater collection. Mr. Hollenbeck personally accepted his award at the WEF Annual Conference in Los Angeles, California on October 14<sup>th</sup>.

Alan Hollenbeck has been President and CEO of RJN Group, Inc. since it became employee-owned in 1995. Mr. Hollenbeck has more than 26 years of experience in collection system engineering, operations, and maintenance issues. He has become a national leader in the research of the relationship between rainfall and collection system flow rates. Mr. Hollenbeck has completed more than 500 related projects nationwide and has presented more than 100 related technical papers at various Water Environment Federation conferences and Member Association meetings. He is the previous recipient of the Illinois Water Environment Association's Golden Manhole Award.

RJN Group, Inc. is a leader in providing Engineering Services and Information Technology Software to municipal, county, state, and federal clients. With the firm headquartered in Wheaton, Illinois, RJN Group, Inc. operates 13 additional offices throughout the United States.

RJN Group, Inc. provides public works engineering services and information technology services for the development, maintenance, and management of municipal infrastructure systems including sewer, water, and drainage. Projects include engineering studies, preliminary and detailed design, construction engineering, and maintenance management. The firm provides the CASS WORKS® family of software products for tracking of asset inventories, maintenance activity, physical inspection and histories, and related management systems. RJN also provides CASSView™, a GIS deployment tool providing direct access to GIS, CASS WORKS, and other related data.
