## **RJN Group, Inc. Performs a Comprehensive Inflow / Infiltration Study in Upper White Rock East Drainage Basin for the Dallas Water Utilities**

Wheaton, IL (October 15, 2003) – As part of the City of Dallas, Dallas Water Utilities' (DWU) efforts to improve the wastewater collection system, RJN Group, Inc. was retained to perform a comprehensive I/I study and analysis in the Upper White Rock East Drainage Basin.

The system contains approximately 595,000 linear feet of sewer ranging in size from 4- to 36-inches in diameter and includes 1,860 wastewater access structures. Specific services include:

1. Manhole / visual pipe inspection (above and below ground)
2. Dual blower smoke testing
3. Cleaning and internal TV inspection with concurrent dyed water flooding
4. Specialized TV inspection for lines located beneath the creek
5. GPS survey
6. Sonar inspection
7. Flow isolation
8. Flow monitoring and analysis / rainfall monitoring
9. Inflow flow balancing
10. Hydraulic modeling using InfoWorks
11. Data analysis (report and recommendations)

RJN Group, Inc. is a leader in providing Engineering Services and Information Technology Software to municipal, county, state, and federal clients for the past 28 years. RJN Group, Inc. has offices located in Fayetteville, Arkansas; Arlington, Austin, Dallas, Fort Worth, and San Antonio, Texas; Tulsa, Oklahoma; and throughout the United States. The firm's headquarters is located in Wheaton, Illinois.

RJN Group, Inc. provides public works engineering services and information technology services for the development, maintenance, and management of municipal infrastructure systems including sewer, water, and drainage. Projects include engineering studies, preliminary and detailed design, and construction engineering. The firm provides the CASS WORKS® family of software products for tracking of asset inventories, maintenance activity, physical inspection and histories, and related management systems. RJN Group, Inc. also provides CASSView™, a GIS deployment tool providing direct access to GIS, CASS WORKS, and other related data.
