**RJN Group, Inc. Selected for Dallas Water Utilities Water and Wastewater Design Contract**

Wheaton, IL (September 13, 2005) – RJN Group, Inc. was recently selected by the City of Dallas Water Utilities Department to complete engineering services for a water and wastewater main replacement design project in various locations within the City of Dallas, Texas. RJN will provide design of construction plans and specifications for the project, which includes 100,000 linear feet of water and wastewater mains ranging in diameter from 6- to 24-inches at 50 various locations. The project will begin in June 2005 and will conclude in June 2006.

RJN Group, Inc. is a leader in providing Engineering Services and Information Technology Software to municipal, county, state, and federal clients for the past 30 years. The firm is headquartered in Wheaton, Illinois with offices in Dallas, Fort Worth, Austin, Houston, and San Antonio, Texas; Fayetteville, Arkansas; Tulsa, Oklahoma; Norcross, Georgia; Miami and Deerfield Beach, Florida; Vienna, Virginia; Boston, Massachusetts; Collinsville, Illinois; and St. Louis, Missouri.

RJN provides public works engineering and information technology services for the development, maintenance, and management of municipal infrastructure systems including sewer, water, drainage, roads, bridges, and in addition, GIS services. Projects include engineering studies, preliminary and detailed design, construction engineering, and maintenance management. The firm provides the CASS WORKS® family of software products for tracking of asset inventories, maintenance activity, physical inspection and histories, and related management systems. RJN also provides CASSView™, a GIS deployment tool providing direct access to GIS, CASS WORKS, and other related data.
