RJN Group, Inc. Expands Offices with Eight New Employees

Wheaton, IL (May 28, 2008) – RJN Group, Inc. is pleased to announce the addition of eight new employees to the Southwest area offices. Phillip Lucia, a mechanical engineering student at the University of Tulsa, was hired out of the Tulsa office as an Engineering Intern and will be focusing on smoke testing and flow monitoring. Darrell Launius was hired as a Field Supervisor out the Little Rock office. Jeff Bennett was hired as a Field Technician out of the newly opened Ft. Smith office. Thaddeus Clark, Timothy Birdwell, Michael Striedel, Rick Darga, and Joseph Talford were hired out of the Dallas / Ft. Worth office as Field Technicians. All eight employees will focus on SSES project responsibilities. RJN Group specializes in all phases of Infiltration / Inflow rehabilitation including SSES, design, construction engineering, post-rehabilitation flow monitoring, computer modeling, and integration of SSES projects with GIS application.

RJN Group, Inc. provides engineering consulting services for municipal, county, state, and federal infrastructure systems. The firm's offerings include the study, design, and construction management of wastewater, water, stormwater, roadways, and bridges. GIS and asset management services are also offered by the firm. RJN, established in 1975, is headquartered in Wheaton, Illinois with offices nationwide.
