RJN Group, Inc. Assesses Sanitary Sewer System Condition for the Dallas / Fort Worth International Airport

Wheaton, IL (August 8, 2007) – RJN Group, Inc. was selected to assess the sanitary sewer system of the Dallas / Fort Worth Airport with an initiation based on maintenance issues in the collection system. RJN will complete responsibilities in association with subconsultants including wastewater flow monitoring, manhole inspection, cleaning and CCTV inspection, modeling, prioritizing recommendations for the Capital Improvement Plan (CIP), and cost estimating. The project will create a more effective CIP based on the needs to maintain a collection system which remains in compliance with federal and state requirements. The assessment is slated to begin in June 2007.

RJN Group, Inc. provides engineering consulting services for municipal, county, state, and federal infrastructure systems. The firm's offerings include the study, design, and construction management of wastewater, water, stormwater, roadways, and bridges. GIS and asset management services are also offered by the firm. RJN, established in 1975, is headquartered in Wheaton, Illinois with offices nationwide.
