RJN Group, Inc. Upgrades Everett's Maintenance Management System

Wheaton, IL (May 13, 2004) – The City of Everett, Washington has contracted RJN Group, Inc. to provide an upgrade to version 8 CASS WORKS along with related programming enhancements, installation, and training for the Department of Public Works. The project includes support for water, sewer, storm, streets asset inventories, maintenance management, and physical inspection, as well as water and wastewater treatment plant maintenance management. The project is scheduled for completion by December 2004.

RJN Group, Inc. is a leader in providing Engineering Services and Information Technology Software to municipal, county, state, and federal clients. With the firm headquartered in Wheaton, Illinois, RJN Group, Inc. operates 14 additional offices throughout the United States.

RJN Group, Inc. provides public works engineering services and information technology services for the development, maintenance, and management of municipal infrastructure systems including sewer, water, streets, and drainage. Projects include engineering studies, preliminary and detailed design, construction engineering, and maintenance management. The firm provides the CASS WORKS® family of software products for tracking of asset inventories, maintenance activity, physical inspection and histories, and related management systems. RJN also provides CASSView™, a GIS deployment tool providing direct access to GIS, CASS WORKS, and other related data.
