RJN Group, Inc. is Contracted to Provide Engineering Design Services to the City of Fayetteville for its \$110 Million Wastewater Collection System Improvement Project

Wheaton, IL (September 23, 2003) – To keep pace with the increasing population of one of the fastest growing cities in the United States (and the most rapid growing city in its region), the City of Fayetteville contracted with the Dallas office of RJN Group, Inc. to provide engineering design services for part of a \$110 million sewer improvement project. RJN Group, Inc. is providing design services for the Westside Interceptor System, which includes approximately \$28 million dollars of improvements. Specific services include:

1. Design of a new 40 mgd lift station
2. Design to upgrade an existing lift station from 6 mgd to 18 mgd
3. Design of 80,000 linear feet of interceptor sewers ranging in size from 24- to 48-inches in diameter

The project is scheduled for completion in 2006.

RJN Group, Inc. is a leader in providing Engineering Services and Information Technology Software to municipal, county, state, and federal clients for the past 28 years. RJN Group, Inc. has offices located in Fayetteville, Arkansas; Arlington, Austin, Dallas, Fort Worth, and San Antonio, Texas; Tulsa, Oklahoma; and throughout the United States. The firm's headquarters is located in Wheaton, Illinois.

RJN Group, Inc. provides public works engineering services and information technology services for the development, maintenance, and management of municipal infrastructure systems including sewer, water, and drainage. Projects include engineering studies, preliminary and detailed design, construction engineering, and maintenance management. The firm provides the CASS WORKS® family of software products for tracking of asset inventories, maintenance activity, physical inspection and histories, and related management systems. RJN Group, Inc. also provides CASSView™, a GIS deployment tool providing direct access to GIS, CASS WORKS, and other related data.
