## **RJN Group, Inc. Helps Fort Worth, TX Re-build Aging Streets**

Wheaton, IL (March 30, 2006) – RJN Group, Inc. was recently selected by the City of Fort Worth Engineering Department, Texas, to provide engineering services to rehabilitate various residential streets under Year Three of the 2004 Capital Improvements Program. The project began in February 2006 and will continue through January 2008.

RJN will be responsible for preparing construction documents (Plans, Specifications, Estimates, and SWPPP documents) for reconstruction of 8,200 linear feet of residential streets, including analysis of the existing drainage systems, design of drainage system improvements, sanitary sewer replacement, and water line replacement.

RJN Group, Inc. is a leader in providing engineering services and information technology software to municipal, county, state, and federal clients for the past 31 years. The firm is headquartered in Wheaton, Illinois with offices in Collinsville and Chicago, Illinois; St. Louis, Missouri; Dallas, Fort Worth, Austin, and San Antonio, Texas; Little Rock and Fayetteville, Arkansas; Tulsa, Oklahoma; Vienna, Virginia; and Baltimore, Maryland.

RJN provides public works engineering and information technology services for the development, maintenance, and management of municipal infrastructure systems including sewer, water, drainage, roads, bridges, and in addition, GIS services. Projects include engineering studies, preliminary and detailed design, construction engineering, and maintenance management. The firm provides the CASS WORKS® family of software products for tracking of asset inventories, maintenance activity, physical inspection and histories, and related management systems. RJN also provides CASSView™, a GIS deployment tool providing direct access to GIS, CASS WORKS, and other related data.
