**RJN Group, Inc. Begins 12-month Long Flow Metering Project  
for the City of Fort Lauderdale**

Wheaton, IL (October 8, 2004) – RJN Group, Inc. has begun the installation, maintenance, and data management of a network of permanent wastewater flow meters and rain gauge at the City of Fort Lauderdale, Florida. All of the flow data and performance data are wirelessly telemetered to a server to allow password-protected access by the City and other authorized parties over the Internet for the purpose of viewing, printing, and downloading the data to Excel. The project was implemented in July of 2004 and will continue through June 2005.

RJN Group, Inc. is a leader in providing Engineering Services and Information Technology Software to municipal, county, state, and federal clients for the past 29 years. RJN has offices located in Deerfield Beach, Florida; Atlanta, Georgia; Boston, Massachusetts; Vienna, Virginia; and throughout the United States. The firm's headquarters is located in Wheaton, Illinois.

RJN provides public works engineering services and information technology services for the development, maintenance, and management of municipal infrastructure systems including sewer, water, and drainage. Projects include engineering studies, preliminary and detailed design, construction engineering, and maintenance management. The firm provides the CASS WORKS® family of software products for tracking of asset inventories, maintenance activity, physical inspection and histories, and related management systems. RJN also provides CASSView™, a GIS deployment tool providing direct access to GIS, CASS WORKS, and other related data.
