The City of Geneva Selects RJN Group, Inc. for GIS Services

Wheaton, IL (October 20, 2005) – The City of Geneva, Illinois recently selected RJN Group, Inc. to provide data conversion services for the Geographic Information System (GIS) Phase IV Conversion and Implementation Project for the City's electrical distribution system. The City's MicroStation based electrical utility mapping system will be migrated to an ESRI geodatabase. The project involves conversion and georeferencing MicroStation files, geodatabase model design and construction, applications development, creating linkages to new and existing databases, and system implementation. The project began in September 2005 and will continue through April 2006.

RJN Group, Inc. is a leader in providing engineering services and information technology software to municipal, county, state, and federal clients for the past 30 years. The firm is headquartered in Wheaton, Illinois with offices in Collinsville, Illinois; St. Louis, Missouri; Fayetteville, Arkansas; Dallas, Fort Worth, Arlington, Austin, Houston, and San Antonio, Texas, Tulsa, Oklahoma; Atlanta, Georgia; Vienna, Virginia; Boston, Massachusetts; and Deerfield Beach and Miami, Florida.

RJN provides public works engineering and information technology services for the development, maintenance, and management of municipal infrastructure systems including sewer, water, drainage, roads, bridges, and in addition, GIS services. Projects include engineering studies, preliminary and detailed design, construction engineering, and maintenance management. The firm provides the CASS WORKS® family of software products for tracking of asset inventories, maintenance activity, physical inspection and histories, and related management systems. RJN also provides CASSView™, a GIS deployment tool providing direct access to GIS, CASS WORKS, and other related data.
