RJN Group, Inc. Selected for a Multi-Year Project in Harker Heights

Wheaton, IL (February 28, 2005) – RJN Group, Inc. was recently selected by the City of Harker Heights, Texas to complete a Citywide Wastewater Collection System Evaluation with associated rehabilitation design. The City owns and maintains approximately 500,000 linear feet of piping, 1,350 access structures, and 18 lift stations. RJN will perform the evaluation, which will include flow monitoring, manhole inspection, smoke testing, dyed water flooding, and CCTV to locate infiltration and inflow defects and maintenance issues. RJN will also provide design, construction engineering, and administration of construction projects to complete the rehabilitation identified. The wastewater collection system evaluation will begin in March 2005.

RJN Group, Inc. is a leader in providing Engineering Services and Information Technology Software to municipal, county, state, and federal clients for the past 30 years. The firm is headquartered in Wheaton, Illinois with offices in Dallas, Fort Worth, Arlington, Austin, Houston, and San Antonio, Texas, Fayetteville, Arkansas; Tulsa, Oklahoma; Norcross, Georgia; Miami and Deerfield Beach, Florida; Vienna, Virginia; Boston, Massachusetts; Collinsville, Illinois; and St. Louis, Missouri.

RJN provides public works engineering services and information technology services for the development, maintenance, and management of municipal infrastructure systems including sewer, water, and drainage. Projects include engineering studies, preliminary and detailed design, construction engineering, and maintenance management. The firm provides the CASS WORKS® family of software products for tracking of asset inventories, maintenance activity, physical inspection and histories, and related management systems. RJN also provides CASSView™, a GIS deployment tool providing direct access to GIS, CASS WORKS, and other related data.
