Horvath Receives LEED AP Certification

St. Louis, MO (September 22, 2009) – Mr. Chris Horvath recently received certification for LEED AP. The Leadership in Energy and Environmental Design (LEED) Green Building Rating System, developed by the U.S. Green Building Council (USGBC), provides a suite of standards for environmentally sustainable construction. A LEED AP is generally recognized as an expert in the field of sustainable design. His main focus as a LEED AP will be in the field of storm water management including storm water quality and erosion control.

Mr. Horvath is a Private Inflow Reduction Report (PIRR) and Inflow / Infiltration specialist. He has experience with the identification of I/I and developing recommendations to remove sources of I/I including those related to environmentally sustainable designs. Horvath's experience has resulted in developing methods to relieve I/I and a quantitative way to accurately determine infiltration into private sanitary service laterals. He works out of RJN Group, Inc.'s St. Louis office having previously earned a Bachelor's of Science in Mechanical Engineering at University of Missouri – Rolla.

RJN Group, Inc. provides engineering consulting services for municipal, county, state, and federal infrastructure systems. The firm's offerings include the study, design, and construction management of wastewater, water, storm water, roadways, and bridges. GIS and asset management services are also offered by the firm. RJN, established in 1975, is headquartered in Wheaton, Illinois with offices nationwide.
