RJN Group, Inc. – Steven Linhardt and Joseph Cotton Join RJN as Project Managers in the Dallas Office

Wheaton, IL (May 13, 2008) – RJN Group, Inc. is pleased to announce the addition of two key project team staff in our Dallas office. Steven Linhardt, P.E. has joined the company as a Senior Project Engineer and Joseph Cotton, P.E. has joined the company as a Project Manager / Project Engineer.

Mr. Linhardt has over 33 years of civil engineering experience. He has worked for engineering consulting firms and a metropolitan utility authority providing design and construction oversight for a number of infrastructure projects. His design experience has also included incorporation of a variety of trenchless construction techniques. He is a Professional Engineer in Missouri and a member of ASCE, WEF, and the Engineers Club of St. Louis. Mr. Linhardt holds a Bachelor of Science Degree and Masters Degree in Civil Engineering from the University of Missouri at Rolla. In his role at RJN, Mr. Linhardt will be responsible for the coordination and supervision of the municipal design teams in the Dallas Office.

Mr. Cotton has 6 years of experience developing evaluation studies, preliminary and final design and providing construction assistance for a variety of civil engineering projects. His specific experience has included the development of Storm Water Pollution Prevention Plans (SWPPP), sewer improvements, environmental assessments and roadway design and structural evaluations. He has managed daily project activities and provided quality control reviews for project work. He is also a professional engineer in Texas and Arkansas and a member of the Texas Society of Professional Engineers. Mr. Cotton holds a Bachelor of Science Degree in Civil Engineering and a Masters of Science Degree in Transportation Engineering from the University of Arkansas. In his role at RJN, Mr. Cotton will be responsible for field and engineering services to evaluate the hydraulic performance of wastewater collection systems and will be working within the Sewer System Evaluation Survey (SSES) department to develop recommendations for clients.

RJN Group, Inc. provides engineering consulting services for municipal, county, state, and federal infrastructure systems. The firm's offerings include the study, design, and construction management of wastewater, water, stormwater, roadways, and bridges. GIS and asset management services are also offered by the firm. RJN, established in 1975, is headquartered in Wheaton, Illinois with offices nationwide.
