**RJN Group, Inc. Performs Flow Monitoring Services for Narragansett Bay  
Commission**

Wheaton, IL (May 13, 2005) – In conjunction with Beta Group, Inc., RJN Group, Inc. is performing flow monitoring services for the Narragansett Bay Commission in Rhode Island. The Narragansett Bay Commission provides wastewater conveyance and treatment for over 360,000 people in ten communities in the greater Providence area. The project consists of long term flow monitoring of the Commission's interceptors as part of a system-wide capacity analysis. The results of the capacity analysis will serve as the basis of a Capital Improvements Program and provide the necessary support for future I/I reduction efforts. The project began in November, 2004 and is scheduled for completion in September, 2006.

BETA Group, Inc. is a regional leader in the fields of transportation, civil, structural, and environmental engineering; the environmental sciences; and GIS/Asset Management services. BETA has offices in Lincoln, Rhode Island; Norwood, Massachusetts; and Rocky Hill, Connecticut and employs a staff of over 90 engineers, scientists, planners, technicians, construction managers, and support personnel.

RJN Group, Inc. is a national leader in providing engineering services and information technology software to municipal, county, state, and federal clients for the past 30 years. The firm is headquartered in Wheaton, Illinois with offices in Boston, Massachusetts; Vienna, Virginia; Deerfield Beach and Miami, Florida; Atlanta, Georgia; Collinsville, Illinois; St. Louis, Missouri; Dallas, Fort Worth, Arlington, Austin, Houston, and San Antonio, Texas, Fayetteville, Arkansas; and Tulsa, Oklahoma.

RJN provides public works engineering and information technology services for the development, maintenance, and management of municipal infrastructure systems including sewer, water, drainage, roads, bridges, and in addition, GIS services. Projects include engineering studies, preliminary and detailed design, construction engineering, and maintenance management. The firm provides the CASS WORKS® family of software products for tracking of asset inventories, maintenance activity, physical inspection and histories, and related management systems. RJN also provides CASSView™, a GIS deployment tool providing direct access to GIS, CASS WORKS, and other related data.
