RJN Group, Inc. to Complete Phase II Engineering for West Meyer Road Reconstruction and Widening in Wentzville, Missouri

Wheaton, IL (November 3, 2005) – The City of Wentzville retained RJN Group, Inc. to provide Phase II Engineering Services for West Meyer Road in Wentzville, Missouri. The project consists of the removal of an existing rural two-lane asphalt roadway and replacing it with a five-lane concrete collector roadway, sidewalks, and associated sewer systems. In addition to the roadway work, a water trunk main will be upgraded, relocated, and extended to the new City water tower. Design services for the project began in June, 2005 with construction continuing through 2007.

RJN Group, Inc. is a leader in providing engineering services and information technology software to municipal, county, state, and federal clients for the past 30 years. The firm is headquartered in Wheaton, Illinois with offices in St. Louis, Missouri; Collinsville, Illinois; Dallas, Fort Worth, Arlington, Austin, Houston, and San Antonio, Texas; Fayetteville, Arkansas; Tulsa, Oklahoma; Vienna, Virginia; Boston, Massachusetts; Deerfield Beach and Miami, Florida; and Atlanta, Georgia.

RJN provides public works engineering and information technology services for the development, maintenance, and management of municipal infrastructure systems including sewer, water, drainage, roads, bridges, and in addition, GIS services. Projects include engineering studies, preliminary and detailed design, construction engineering, and maintenance management. The firm provides the CASS WORKS® family of software products for tracking of asset inventories, maintenance activity, physical inspection and histories, and related management systems. RJN also provides CASSView™, a GIS deployment tool providing direct access to GIS, CASS WORKS, and other related data.
